EXECUTIVE SUMMARY

This campaign deploys a high-converting, medically guided acquisition funnel engineered specifically for SuA Glow's flagship $399 Korean Scalp Reset experience. Moving beyond standard relaxation 'head spas,' this campaign positions SuA Glow as the premier clinical destination for non-surgical needle-free follicle infusion (DEP technology).

Key Accomplishments:
• 3 Dedicated Audience Segments: Differentiated ad groups for General Hair Loss, Female Thinning, and Men's Hairline.
• 44 High-Intent Phrase Keywords: Eliminating search waste while dominating North Texas commercial queries.
• 22 Waste-Prevention Negative Keywords: Shields budget from surgical procedures (FUE/FUT) and DIY searches.
• Precision Municipal Geofencing: Strict 'Presence' targeting across Carrollton + 12 affluent surrounding DFW cities.

NEXT 30-DAY SCALING & OPTIMIZATION ROADMAP

1. **Days 1 – 7: Algorithm Learning Phase**
   Bid strategy: Maximize Clicks. Monitor daily query volume and verify all phone call clicks and lead form submits register accurately in Google Ads.
2. **Days 8 – 14: Search Query Negative Scrubbing**
   Inspect the real-world Search Terms Report. Add any irrelevant adjacent terms (e.g. shampoo brands, scalp ringworm) into the negative keyword shield.
3. **Days 15 – 30: Smart Bidding (Target CPA) Transition**
   Once the campaign logs 30–50 conversions, switch from Maximize Clicks to Target CPA to automate bidding toward the highest-converting patient inquiries.
4. **Month 2: Image Extensions & Demand Gen Expansion**
   As Google's 28-day spend threshold clears, link the 7 staged Image Assets to live Search ads and launch targeted Meta / YouTube companion remarketing.
